

BACK-END DEVELOPER

Mohsen Zare

OBJECTIVE

To leverage my extensive experience in backend development, particularly with PHP, Laravel, and database management, to contribute to the success of a dynamic tech company.

EXPERIENCE

SETAWOOD

Setawood Co. | Yazd, Iran | setawood.com

A web application for selling and pricing products, featuring a space for designing 3D kitchens. Additionally, it includes inventory management, shipment tracking, and a customer loyalty program. This web application is scheduled to be launched soon.

HAMRAH YAZD

MCI CO. | Yazd, Iran | hamrahyazd.ir

A management website for Hamrah Aval Yazd company, built using WordPress. This website utilizes plugins developed by me to fulfill all the requirements.

DUEL GAME NET

Duel Game Net | Yazd, Iran

Management software developed using Laravel. This software is designed to manage employees and delivery couriers of this organization. It includes features such as a customer loyalty program and more.
